

Premium Training Guide

Use this guide as the starting point for a structured plan, not random exercise lists. Every Garcia Builder workout template includes sessions, sets, reps or time, rest intervals, coaching notes, progression guidance and a clear call to action for personal coaching.

What to do next

1. Choose a workout template that matches your goal, level and equipment.
2. Follow the written sets, reps, rest intervals and notes for 4-12 weeks.
3. Track load, reps and recovery so the plan progresses instead of changing randomly.
4. Message Andre if you want the plan customized for your schedule, injuries and target.

Ready for a coached plan?

Need this adapted to your body, schedule and equipment? Book a consultation with Andre Garcia.
